<b>Corynebacterium diphtheriae (Diphtheria)</b>	Rheumatic fever
<b>Coxiella burnetii (Q Fever)</b>	Rickettsia rickettsii ( <b>Rocky Mountain Spotted Fever</b> )
Cryptococcus neoformans	Rickettsia species ( <b>Typhus Group</b> )
Cryptosporidium species	Rubella virus
Cyclospora species	<b>Salmonella species</b>
Dengue virus	Salmonella typhi ( <b>Typhoid Fever</b> )
Ehrlichia species	Severe Acute Respiratory Syndrome ( <b>SARS</b> )
Encephalitis, viral	<b>Shigella species</b>
California serogroup	Spongiform Encephalopathy ( <b>Includes CJD</b> )
Eastern Equine	<b>Staphylococcus aureus, vancomycin intermediate/</b>
Powassan	<b>resistant (VISA/VRSA)</b>
St. Louis	Staphylococcus aureus, ( <b>MRSA</b> ), outbreaks only
Western Equine	Streptococcus pyogenes, group A, sterile sites
West Nile	Streptococcus pneumoniae, sterile sites, susceptible/
Unspecified	resistant
Entamoeba histolytica ( <b>Amebiasis</b> )	Toxic Shock Syndrome
<b>Escherichia coli, O157:H7 and all other shiga toxin positive serotypes</b>	Treponema pallidum ( <b>Syphilis</b> )
<b>Francisella tularensis (Tularemia)</b>	Trichinella spiralis ( <b>Trichinosis</b> )
Giardia lamblia	Varicella ( <b>Chickenpox</b> )
Guillain-Barre Syndrome	<b>Vibrio cholerae (Cholera)</b>
Haemophilus ducreyi ( <b>Chancroid</b> )	Yellow fever virus
Haemophilus influenzae, <15 years of age, sterile site	Yersinia enterocolitica
Hantavirus	<b>Yersinia pestis (Plague)</b>
Hemolytic Uremic Syndrome ( <b>HUS</b> )	<i>Unusual occurrence, outbreak or epidemic of any disease or condition</i>
Hemorrhagic fever viruses	
Hepatitis, viral	
Hepatitis A virus, ( <b>Anti-HAV IgM</b> )	
Hepatitis B virus, ( <b>HBsAg</b> )	
within 24 hours on pregnant women	
Hepatitis C virus, ( <b>Anti-HCV</b> )	
Hepatitis, non-ABC	
Histoplasma capsulatum	
HIV, ( <b>Confirmed positive HIV serology and detection tests; CD4 counts/percent and all viral loads on people already known to be infected</b> )	
Influenza virus ( <b>Weekly aggregate counts</b> )	
Kawasaki Disease	

### LEGEND

**Green Bold Text** = An isolate or serum sample, where appropriate, is to be submitted to MDCH or other laboratory designated by MDCH. Confirmed positive HIV diagnostic sera are to be submitted for incidence testing.

**Report All Listed Conditions to the Local Health Department (see reverse)**  
*This reporting is expressly allowed under HIPAA Communicable Disease Rules: R 325.171, 172, 173*
